Experienced in building scalable, responsive, and high-performance web applications with modern UI/UX principles. Proficient in leveraging AI-powered tools such as GitHub Copilot, ChatGPT, and Claude AI to accelerate development workflows. Strong understanding of frontend architecture, backend integration, RESTful APIs, database design, and performance optimization. Understanding of modern front-end / Backend / Database ecosystems, principles and performance optimization.

EDUCATION AND CERTIFICATION

Bachelor's degree (CSE) | Global Institute of Technology, Jaipur University August 2016 - August 2020
Senior Secondary Education (Science) | Anand Public School, Jaipur August 2016

WORK EXPERIENCE

Lead Developer | Growit.ai Technology Private Limited 09/2025 – Ongoing

- Developed, maintained, and enhanced a scalable **Hospital Management EMS web application** using **React.js**, Python.
- Built reusable, modular React components following modern **component-based architecture**.
- Integrated **RESTful APIs** to enable seamless communication between front-end and back-end systems.
- Implemented efficient **state management using Redux** for complex application workflows.
- Designed and developed **responsive, user-friendly UI** using **Tailwind CSS**.
- Wrote clean, optimized, and well-documented **JavaScript (ES6+)** code.
- Collaborated closely with backend developers, designers, and product teams to deliver high-quality features.
- Worked with healthcare-related data while following best practices for data handling and performance optimization.

UI Developer | Formidium India Private Limited, Jaipur 02/2022 – 07/2025

- Built and maintained **React.js applications** with reusable, scalable, and high-performance components.
- Translated **Figma designs** into **pixel-perfect, responsive UIs** using **Tailwind CSS** and **Bootstrap**.
- Integrated **custom and third-party APIs** to deliver dynamic, real-time features and data-driven experiences.
- Managed and optimized **12+ high-traffic websites**, ensuring top performance and seamless user experience.
- Designed and developed **modern, user-centric product pages**, improving engagement and conversion.
- Collaborated with **cross-functional teams** to deliver cohesive branding, new features, and UX enhancements.

- Managed and optimized 12+ production applications, improving performance, scalability, and database query efficiency.
- Improved application performance through API optimization, code splitting, lazy loading, and database indexing.
- Collaborated with cross-functional teams to deliver end-to-end features from database design to UI deployment.

Web Designer | Uplogiks, Jaipur

11/2020 – 02/2022

- Developed and maintained **50+ responsive WordPress websites** with a strong focus on **performance, accessibility, and user experience**.
- Converted **PSD designs** into **pixel-perfect, SEO-friendly HTML/CSS layouts** aligned with modern web standards.
- **Customized and extended WordPress themes and plugins** to deliver enhanced functionality and client-specific features.
- Designed and implemented **mobile-first, responsive UIs** using **Elementor, Gorilla Forms, and custom form integrations**.
- Ensured **cross-browser and cross-device compatibility**, maintaining a consistent look and feel across all platforms.
- Created and maintained **reusable components and code libraries** to streamline future development and ensure scalability.

Trainee in Web Development | Uplogiks, Jaipur

05/2019 – 07/2019

- Gained hands-on experience with **modern web development tools, design workflows, and methodologies** across multiple projects.
- Designed **visually engaging web interfaces, graphics, and mockups** using **Adobe XD**, ensuring alignment with branding and project goals.
- Contributed to **UI/UX design initiatives**, emphasizing **usability, visual consistency, and modern design principles** to enhance user engagement.
